

Quilt #9

Quilt #9 Arrived at Willard High School in Willard, Ohio after traveling from Aberdeen, South Dakota. The students were extremely excited to open the box and see what it looked like. Last year we received Quilt #2 and we began by comparing the two quilts. The students listed things that were similar and we created a new list of things that were different.

Each student chose one quilt square as his or her favorite to describe. We incorporated the quilt into our journal writings, math lessons and reading/language arts lessons.

We mapped out where the quilt would be traveling and looked at all the different states that it would call home. We were very excited to see that Quilt #9 would be traveling to Brooksville, ME! Our classroom was able to Skype with Mrs. Lepper's classroom last year. We thought it was extra special that we were sharing the same quilt this year.

Quilt #9 spent some time hanging in our classroom and in the school display window. We will miss having Quilt #9!
